I understand that I am making a commitment to Chickadee Creek Farm and recognize that there is no guarantee on the exact composition of the produce types that I may select from. Successful growing relies on the weather. I will share in the risks of the growing season with my farmers, and receive a discount from the market price of vegetables as a reward. It is my responsibility to select produce to fully use the amount of credit in my account during the season, though unused credit will roll forward to the next year. I understand that this agreement is only binding between myself and Chickadee Creek Farm, and not upon other farms that participate in the Farmers' Market.
